

TigernixSMS

School Management System

SOLUTION OVERVIEW

SOLUTION OVERVIEW

TigernixSMS is a clever response to the laborious administrative processes involved in managing schools and colleges. It is an intelligently built School Management System that caters to your every need.

TigernixSMS provides end-to-end features that enable easy management of students, classroom-booking, parent communication management and finance management functions for colleges and schools. It is a completely online school portal with booking system facilities, library management, document management as well as event management for the school's activities.

The most essential task of managing courses and fee for the same, overall finance and accounting, and all the in between processes can be managed smoothly using this single platform.

ADVANTAGES

By using TigernixSMS, your educational institution can cut cost, save time, and increase productivity in a big way. We understand how painstaking it is to manage huge volumes of paper and data; and to make sure that we simplify that entire process for you.

Simplify management efforts

TigernixSMS is like a personal assistant to your institution's management and streamlines all administration tasks. It is an effective tool that helps your institution to manage information in a meticulous way.

Single platform for communication

TigernixSMS provides a single platform for the school, teachers, and parents to communicate and share information. It minimizes the efforts to build more communication channels to send different messages to different audiences.

Easy finance management

TigernixSMS simplifies the finance management involved in your institution; from fee to administrative and operational expenses.

Secure data management

TigernixSMS is a robust and secure system that keeps your data in a safe and secure manner.
