

TigernixFAS

Financial Assistance Scheme System

SOLUTION OVERVIEW

SOLUTION OVERVIEW

When you are managing a financial scheme with great intentions to help people in need, you deserve to have the best technology that you can use to serve better, with efficiency and accuracy. TigernixFAS is the one and only financial scheme management software that can help you manage all sorts of financial scheme management programs from one platform. Whether you are a government agency, non-profit organization or an educational institute, TigernixFAS can take how you manage your financial assistance scheme to the next level.

Offering you an array of tools and applications to help you introduce automation and digitalization into your day to day processes the system will help you restructure your program while enabling you to deliver a better service than ever before. From applications, scoring, reviewing, payments to handling prospects and reporting the system will automate everything on your behalf, enabling you to manage everything right from your screen.

No more spreadsheets. No more endless email communication. TigernixFAS will streamline your financial assistance management programs through and through delivering, you better efficiency, accuracy, productivity and reliability while saving you money and the hassle.

ADVANTAGES

Centralized System Administration

It can be quite challenging to manage records, of your applications, application scores, prospect profiles, payments and claims when you have to maintain an endless number of spreadsheets. With TigernixFAS, you can store all data in one place and have access to everything in minutes, making administration operations more effortless than ever before.

Saves Time and Costs

When you have TigernixFAS implemented in your organization, it will save you time and money in ways you never thought was possible. It will speed up processes with automation while enabling your teams to collaborate and communicate effectively. It will also allow you to get done more work with lesser workforce improving efficiency and productivity.

Standardized data collection

With our technology, you can make your processes spreadsheet-less and paperless - which will make data collection and organization easy and effective. With our platform, you can collect, store, organize and filter all your prospect contacts, applications, events, campaigns, payments and more from one place. This will improve the accuracy of your data while taking the hassle out of data collection and management.

Automate Report Generation

Effective and transparent reports are essential in any financial scheme program, and TigernixFAS help you do just that with more ease, efficiency and accuracy. Our comprehensive report generating tools will assist you in creating all the reports you require with a click of a button. Plus it gives you the option to share them with necessary stakeholders from then and there making reporting easier than ever before.

Improve Transparency

When you have everything digitally stored and can be viewed all your processes no matter where you are effectively, you will have better visibility over your financial scheme programs. And TigernixFAS comes with a myriad of tools to improve the transparency of your programs in ways you never thought was possible. From donation management to grant-making, it will handle all with complete transparency from one platform enabling you to secure more trust from the prospects and the stakeholders who are involved in the program.

Better Organization

TigernixFAS is a comprehensive tool that can have the potential to transform how you've been managing your financial scheme program. It will redefine and restructure all your processes, delivering you better speed, efficiency, accuracy and reliability. It will take the complexity out of many of your processes, giving you peace of mind to focus more on the mission you are on rather than behind the scene logistics.
