Training

SOLUTION OVERVIEW

SOLUTION OVERVIEW

Not only quality and functional software but at Tigernix, we also offer you proper training for your staff as we believe, no tool worth anything if your employees don't know how to use it effectively. With professionals of the subject, we are happy to help you train your staff, in order to help your business in receiving the maximum ROI, with all the software solutions we offer.

Offering your staff with high-quality training, our focus is to make the learning process as simple as possible, breaking the complex features and operations into small digestible chunks. Tigernix training is easy-to-understand and allows your staff to get familiarize with new software with the least amount of effort.

Our training sessions help you with speeding up the learning process of your staff, cutting down your operational and production costs and improving the business efficiency. We ensure you to make everyone comfortable with the software before the changeover.

BENEFITS

Reduce Your Operational and Production Costs

With result-driving training sessions, at Tigernix you can shorten the new software learning curve of your staff. Meaning it reduce the time taken for the learning process which usually disturbs and slow down the efficiency in performing daily tasks. This also enables your employees to perform operations with the new software with more confident and comfort reducing the mistakes, losses and complications and enhancing the efficiency which leads you to save more money.

Increase Efficiency

Most of the time it's frustration and dissatisfaction is what your employees experience in the first few days after the changeover as they are not well aware of the new software. Our Tigernix training can make things easy for your staff, supplying them with relevant knowledge on using new software, in an effective and organized manner.

This means your staff will get more motivation and enthusiasm, leading you to achieve your daily operational goals effectively, increasing the efficiency of your business.

Cut Training Cost

Designing and creating learning materials, hiring training professionals, arranging and organizing training sessions are highly expensive and consume a significant number of hours. With our training sessions, you can train your staff without a hassle within a low budget, receiving a way more value for your money as we work with the best training professionals and provide you with high-quality training along with the best learning materials.

Adopt Technology Faster

As Tigernix training is well-organized, interactive, and have designed according to the modern learning methodologies and effective training techniques, your staff will adopt the new technology fast causing least amount of operational complications. Our training will help your staff get familiarize with the new features of the software with the least amount of effort which enables them to work with the new software with more confident.

Customize Learning Experience

Most of the times no employee will use all the features of a software. This is the reason we developed customize training sessions for a spectrum of roles of a company which can eliminate the working hours employees have to waste learning about features they are never going to use in their time at the company. This makes the training process more effective and efficient delivering a very specific training for each of the employees based on their role, functions and responsibilities.

FEATURES

Expert Lecturers

Learn and receive a training from well-qualified professionals experienced on the subject. Our training consultants who possess a wide knowledge on the subject will share their knowledge in the most effective ways using their easy-to-understand and engaging teaching methods in a professional manner.

Comfortable Learning Environments

At Tigernix, we hold our training sessions in at our customer facility or within our company premises depending on the training. Yet, regardless of the place, we make use to arrange a comfortable learning environment for your staff, helping them to engage with the learning process with the minimum distractions. In addition, we have scheduled appropriate breaks within the sessions to ensure that your staff don't get bored till the end.

Role-based Learning Modules

Training employees for tasks that are not related to their responsibilities at the company is a huge waste of time. With Tigernix training we deliver role-based learning modules that allow your employees to acquaint only with the features that are related to their functions and responsibilities at the company which enhances the value of our training.

Simple and High-quality Learning Materials

Adopting modern and effective learning techniques, our training sessions and comprehensive learning materials have designed and developed to provide your staff with a clear and effective training experience. All our content have created to allow your staff to familiarize with the software in a hassle-free and stress-free manner, with the least amount of effort, as we explain and demonstrate complex features and software 'how to's with the simplest words.

Based on Hands-on Exercises

To permanently remember something, practising and using your knowledge to solve practical problems are essential. This is the reason Tigernix training service mainly focus on providing you with many on-hand exercises throughout the training.

Collaborative Learning Environment

Allowing you to actively interact with your peers and training instructors, we offer you collaborative learning opportunities including group activities and interactive discussions in order to let you improve your knowledge and absorb the most of our training sessions. With this, you can receive immediate help and support with correcting mistakes and getting it right.

Real-time Software Updates

At Tigernix we constantly update our software to offer you the latest software solutions opening doors for you to run your business with the least effort. Our training services include training sessions for complex software updates which help your staff get familiarize with the new updates of the software within a shorter period of time causing the least disturbance to your daily operations.

Certification

Tigernix offers each and every employee a professional certificate at the end of the training for successfully completing our training sessions which allow them to easily verify their knowledge and experience anywhere.

Personal Support

A training to be a perfect training, it needs a personal support system. At Tigernix, we offer your personal supporting sessions answering individual questions to clear the every tiny bit of uncertainty, doubts and confusions you have, as we are always after 100% results.
